ThemeSync — Expert Aesthetic Evaluation

Rating packet for: Evaluator A · 12 layouts · about 10 minutes

Each page shows a master layout (an event poster, on the left) next to a certificate or event ID that was generated from it (on the right). Please rate the generated layout on the three design parameters below, by circling one score from 1 to 5 for each.

Judge the generated layout only. The master layout is there so you can see which colours, logos and visual style the generated layout was meant to carry over.

Some pages may look alike. Please rate every page on its own merits, without comparing it to other pages or going back to change earlier scores.

Names, dates and wording are sample data. Please don't rate the text content itself, only how it is laid out, styled and branded.

The three design parameters

Visual Hierarchy Preservation

Does the placement keep the correct structural dominance? (e.g., the recipient's name or the certificate title remains the primary focal point relative to the surrounding elements)

Brand and Typographic Consistency

Are the user-defined fonts, baseline geometric sizes, and extracted color palette rendered accurately, without hallucinated colors or typefaces?

Constraint and Whitespace Harmony

Is the layout free of element occlusion (overlapping text/graphics), with negative space that meets professional composition standards?

Rating scale (Table 2: Mean Opinion Score Rating Scale)

Score	Rating	Description
5	Excellent	No noticeable flaws
4	Good	Minor aesthetic deviations
3	Acceptable	Noticeable but non-destructive deviations
2	Poor	Significant layout fragility
1	Fail	Severe structural overlap or typographic failure

Thank you.

Before handing the packet back, please check that each of the 12 sample pages has exactly one circled score for each of the three parameters.

Your ratings will be averaged into the Mean Opinion Score reported in the study.
