WEEK 4 :: CHAPTER 4

WEEK 4

CONTENT

- Chapter 4
- Content and Formatting
- Deliverables

WEEK 4

CHAPTER 4 :: RESULTS AND DISCUSSION

This chapter discusses how the project was performed, delivered and completed in reference to the specific objectives enumerated in Chapter 1. It discusses how the comparative/experimental study was performed accompanied by theoretical proofs and evidences; the presentation of results and the discussion of the findings.

WEEK 4

CHAPTER 4 :: RESULTS AND DISCUSSION

The sections for Chapter 4 is in free-form, you can assign and name your sections by any of the following guide:

- per Research Objectives
- per Research Questions
- per Research Process

Each section will contain the Result and Discussion.

WEEK 4

CHAPTER 4 :: RESULTS AND DISCUSSION

RESULT

- What answer was found to the research question?
- What did the study find?

DISCUSSIONS

- What might the answer imply, and why does it matter?
- How does it fit in with what other researchers have found?
- What are the perspectives for future research?

WEEK 4

CHAPTER 4 :: RESULTS

- The main idea is to clarify what was found as results and how those results are discussed.
- Avoid discussion, commenting, and any speculation when presenting the results.
- A general guideline for a Result section(s) is to write the facts, e.g., what you built or what you observed and what you analyzed from the data observed.
- Do not present raw data as your results; visualize your results using tables, charts, graphs, and other visualization methods. Analyze and interpret it so that the reader can understand what was found.
- While reporting the result, you should keep looking back to your research questions/ objectives to see that you write about answering them.

WEEK 4

CHAPTER 4 :: DISCUSSION

- You reflect your results to the research questions to discuss how well you answered them.
- Discussion is about what the results mean and the implications of the findings.
- Discuss the validity and generalizability of the results and compare the related work.

WEEK 4

CHAPTER 4 :: DISCUSSION

Structure of Discussion (PIIILS)

- **P**rincipal findings
- **I**nterpretation of findings
- **I**nterpretation in context of literature
- **I**mplications
- **L**imitations
- **S**ummary

WEEK 4

CHAPTER 4 :: DISCUSSION - Principal Findings

- Summarize your major findings
- Do not simply reiterate results
- Shift from numeric data to descriptive words
- Do not introduce additional or new result

WEEK 4

CHAPTER 4 :: DISCUSSION - Interpretation

- What do the findings/results mean?
- Are the findings consistent with previous research or do they counter previous findings?
- Posit why this might be, particularly if your findings differ from others.

WEEK 4

CHAPTER 4 :: DISCUSSION - Implications

- Impact that your research might have on future research or policy decision or relevant field or the relevant field of interest of your study.
- How the results much be generalized.
- New things to consider as a result of findings.

WEEK 4

CHAPTER 4 :: DISCUSSION - Limitations

- Be thoughtful and reasonable
- Don’t beat yourself up
- Acknowledge issues of scientific concern
- Don’t trash the validity of your study

WEEK 4

CHAPTER 4 :: DISCUSSION - Summary

- The Summary of the Discussion section may be the Conclusion
- Summary: summarizes the findings/conclusion
- Conclusion: ultimate take-aways message

WEEK 4

CHAPTER 4 :: FORMAT

Tense in Chapter 4 must be in the **PAST TENSE**. Also, remove language referring to the proposal, such as propose, intend, etc.

WEEK 4

CHAPTER 4 :: DELIVERABLES

- Revised TD Manuscript, with CLF from TA, and Grammarian
- Accomplished RSC

  AUG 31, 2026

- Data Collection Instrument (if necessary)

  SEPT 7, 2026

- 1st Prototype (60%)
- CLF from Consultant

  SEPT 14, 2026

- Draft of Chapter 4

  SEPT 21, 2026
