WEEK 5

CONTENT

- Chapter 5
- Content and Formatting
- Deliverables

WEEK 5

CHAPTER 5 :: SUMMARY OF FINDINGS, CONCLUSIONS AND RECOMMENDATIONS

This chapter serves the following purpose:

- Gives an assessment of what happened in the project.
- Presents explanations and justifications on how the objectives of the project were met, to what extent, and why some objectives were not met.

WEEK 5

CHAPTER 5 :: SUMMARY OF FINDINGS, CONCLUSIONS AND RECOMMENDATIONS

It includes the following section/headings:

- Summary
- Findings
- Conclusions
- Recommendations

CHAPTER 5 :: SUMMARY

In writing the summary, one must discuss briefly the following:

- Research/project content
- Aim/purpose/objective
- Scope and limitation
- Research design
- Methodology chosen
- Respondents
- Data gathering procedure
- Statistical treatment
- Brief summary of findings

WEEK 5

CHAPTER 5 :: FINDINGS

- This section will only discuss the collected data and the data analysis results, such as statistics generated from the raw data.
- Findings must not include interpretation of the results to draw conclusions or formulate theoretical explanations.
- This should be attuned with the objectives.

WEEK 5

CHAPTER 5 :: CONCLUSIONS

- This section reaffirms the thesis/capstone objectives, discussion, and final judgment.
- The conclusion is not a summary; this is the part to share with the readers the conclusions reached because of the project.
- This should be attuned with findings.

WEEK 5

CHAPTER 5 :: RECOMMENDATIONS

- This section includes a discussion of possible improvements that can be made on the software, as well as future directions of the project in general.
- This serves as the springboard for projects that may be done by future project proponents.
- This should be attuned with the conclusion.
