ThemeSync — Expert Aesthetic Evaluation

Rating packet for: Eisen Rose D. Galvante · 60 layouts · about 55 minutes

Each page shows a master layout (an event poster, on the left) next to a certificate or event ID that was generated from it (on the right). Please rate the generated layout on the three design parameters below, by circling one score from 1 to 5 for each.

Judge the generated layout only. The master layout is there so you can see which colours, logos and visual style the generated layout was meant to carry over.

Some pages may look alike. Please rate every page on its own merits, without comparing it to other pages or going back to change earlier scores.

Names, dates and wording are sample data. Please don't rate the text content itself, only how it is laid out, styled and branded.

The three design parameters

Visual Hierarchy Preservation

Does the placement keep the correct structural dominance? (e.g., the recipient's name or the certificate title remains the primary focal point relative to the surrounding elements)

Brand and Typographic Consistency

Are the user-defined fonts, baseline geometric sizes, and extracted color palette rendered accurately, without hallucinated colors or typefaces?

Constraint and Whitespace Harmony

Is the layout free of element occlusion (overlapping text/graphics), with negative space that meets professional composition standards?
