Title : **Themesync: A Graph-Based Design Orchestration Framework With Real-Time Constraint Satisfaction And Stateful Refinement**

Alias : Carbonara

Date : MAY 04, 2026 12:00 – 1:30 PM ☒ TD ☐ POD ☐ FOD

Secretary : ARON V. IBIAS

MANUSCRIPT			
CHAPTER	**PAGE NO.**	**RECOMMENDATIONS, SUGGESTIONS AND COMMENT (RSC)**	**ACTION TAKEN**
General	**12**	• Add sizes and font feature in your visual DNA • Follow proper formatting • Must have intext citation	• Added sizes and font feature in visual DNA • Followed proper formatting • added in-text citation
1	**2**	• Mention pomelli by google labs • Add short introduction before the background of the problem	• Pomelli was added to the background of the study in the Background of the Problem section. • A short introduction has been added in Chapter 1.
	5	• Fixed the formatting of specific objectives	• The formatting of the specific objectives section has been revised according to the requirement of the panel. (unbold: **To design, To develop, To evaluate**)
2	**16-28**	• Follow proper citation format	• Proper Citation is now applied in Chapter 2. (Author [year] and simply [reference number])
3	**43**	• Discuss in methodology on how will you ensure the correctness of your visual DNA	• Added a new subsection “Validation of Hybrid Visual DNA Correctness” under Theorems, Algorithms, and Mathematical Framework
	41	• Establish a correct evaluation metrics • Add evaluation by layout artist / expert	• Stated that the final output validity will be corroborated by a human domain expert to ensure real-world industry alignment. ○ Updated Scope and Limitation in Chapter 1 - Page #8 ○ Revised Evaluation Metrics Intro in Chapter 3 - Page #55 • Added a formal “Phase 4: Expert Aesthetic Validation” to Research Procedure. - Page #54 • Added a new subsection under Evaluation metrics (Mean Opinion Score (MOS) for Aesthetic Alignment). - Page #57 • Revised SO3 to include quantitative human-expert validation. - Page #6 • Added MOS to Project Dictionary - Page #11 • Updated the Theoretical Framework and its diagram to support Phase 4. - Page #59 • Restricted IoU to Phase 1. - Page #55 • Revised Structural Accuracy Rate (F1-Score and Classification Metrics) subsection. - Page #56
	47	• Revise training data and feature mapping - include details and sample dataset	• Training Data and Feature Mapping section under Theorems, Algorithms, and Mathematical Framework is now revised and includes sample images from the dataset

	Appendix B	• Dynamic content payload for real-time runtime orchestration - present this as table instead or transfer to annex	• "Dynamic content payload for real-time runtime orchestration" and other codeblocks are now transferred to annex and properly referenced
	53	• Revise prototype mockup see manuscript for recommendations	• The UI has visually represent the "Hybrid Visual DNA" and the user-defined font/size features

SOFTWARE PROGRAM/ PROTOTYPE
